GENERAL INFORMATION

I am a location sound recordist with over five years experience, working on a variety of programmes from many of the major broadcasters. I have worked for broadcasters both in the UK and abroad, and enjoy the aspect of travel which can come with the job. The majority of my experience is working on documentary, light entertainment, current affairs, childrens entertainment, commercial and sport.

I am a positive person with a passion for sound recording, which reflects in the work I do. I feel I am very easy to work with and fit well into any team. My professional attitude is evident in my work, and my sense of humour within a crew is reflected in the many contacts and friends I have built throughout my career.
